THE DAILY NEWS.

There is no heart but hath its inner anguish,
There is no eye but hath with tears been wet,
There is no voice but hath been heard to languist
O'er hours of darkness it can no'er forget.

There is no cheek, however bright its roses, But perched buds beneath its hues are hid; No bright eye in its dewy light reposes, But broken star b-ams tron ble 'neath its lid.

There is no lip, howe'er with laughter ringing, However light and gay its words may be, But it has b trembled at some dark upspringing Of stern effiction and deep misery. We are all brothers in this land of dreaming, Yet hand mee s hand; and eye to eye replies; Nor deem we that beacant a brow all beaming The flower of life in broken beauty lies.

Oh! blessed light that gills our night of sorrow; Oh! baim of Gilead for our healing found: We know that place will come with the to-morrow and that affil tions spring not from the ground

Commercial.

Exports. PHILADELPHIA—Per brig Josie A Devereaux—181 libros Bice, 17 bales Upland Cotton, 100 bbls Rosio, 12 bales Rage, 3 vales Rope Cuttings, 4 hhds from, 400 tone Phosphate.

OFFICE OF THE CHARLESTON DAILY NEWS, CHARLESTON, Monday Evening, July 12. Corron,—A light demond prevailed for this article and previous figures were steadily maintained. Sales about 125 bales, viz: 13 at 82; 19 at 82%; 60 at

32%; 25 at 63 cents. We quote: LIVERPOOL CLASSIFICATION.

Bron.-A fairly sustained inquiry prevailed for this grain at steady prices. Sales 128 tierces of clean Carolina, viz: 14 tierces at 7%; 50 at 7%; 66 at 7% cents. We quote common to fair clean Carolina 734

& Co.'s Cotton Report, for the week ending July 9, 1889.

week encing July 9, 1889.

NEW YORE, July 10.—The Manker.—In our last report the u state closed firm at 34% for middling siplands: Satintaly the market was square and steady. Sales 1625 bales at 34%. Monday, was a close holimy here. Triesday, the market was squarelly quiet, but firm Sales 2625 usles at 34%. Wednesday, there was not much doing, but prices were steady. Sales 1965 bales. Thursday, the market was generally quiet, but firm and steady, with a moderate spinning demand. Sales 1944 bales at 34% Yesterfay, there was go small a demand that even the limited quantity offered years of the sales at 34% Yesterfay, there was go small a demand that even the limited quantity offered prices in Liverpool have not varied from 12% of for upize ds. The arrival of 90,000 bales in Liverpool, and some failures in Lancashire, have the sale work, we do not think that a few failures will have any listing effect on prices. For the past two weeks the weather has been very seasonable, and the acceptance from all sections are favorable.

There have been received at the ports since the let september 2 030,000 bales of which exporters have taken 1,422,136 bales is pinners 664,796 bales; and the stocks are 3 18 bales larger than at that date. Deficitly in receipts as compared with last year, 53,638 bales. Deficit in shipments to Liverpool, 249,892 bales.

cit in receipts as compared with last year, 53.33-biales. Deficit in shipments to Liverpool, 249,892 biales.

The deficiency in visible supply, as compared with 251 year, is now up to 300,000 bales, and thus figure will be further increased as we receive the Bombay mail of the latter part of June, advising the reduced chipments. The stock in the United States is now down to 26,000, and there are enty 4000 bales in the interior towns. I has sto to 44,000 bales and perhaps 20,000 tales more to be received 45,the ports, must suffice it our spinners for export and for stock antil the new crop. The future course of the market depends very much on the stock now held; by spinners. If they ar. forced to come into the market prices would further advance to a point that would render a stoppage of the mile, in August, necessary.

Lastys r. at this time, the stock in the country was 20,000 bales, and there were 16,200 bales More generated up to 1st reptember. A. 8442 bales were exported, and the stock tartied over was 43,594 bales spinners must have taken form 10th July to 1st reptember 50,445 bales. If they had being snore freely thus season, and thus kept more cuttod in the country, we will not now see prices maintained here on a parity with 14d, while in Liverpool madelling isomy worsh 11/3c123/d.

The position of American cotion in Liverpool, up to 15th eventure it about as follows: stock, 207, 000; aftort, 49,000; about 14,600 bales. Total, 304,000. Ac leave the stock there 44,600 bales (same as inst year their world by a weekly supply for the mills of only about 14,600 base. At present the amount taken out of the market every week is over 25,000 bales. The import of East India cotion to be received in July casnot much exceed the March shipments (155.600) and the August mor or will correspond with the August more of the country, and there are sufficient to bring about a material reduction of the consumption in necessar.

Latter from the Surgeon-General of the late Confederate States.

BICHMOND, Va., Japuary 14, 1868.

JOHN DAMN & Co., No. 160 William-street, New York:

Forn:
Gentlemen—I have received your letter of the 16th
of Detender, 1866, calling my attention to your
(barby's Prophyláctic) Finta.
I most cheerinily sute that the Fluid was furnished to, and extensively used by, the surveons in
charge of general hospitals in the Confederate service with great beauth to the patients—all the surgeous making a favoratic report—a great deal of it
was used in the hospitals.

Sand L. Therefore MOORE, m. D.,

THE ASTONISHING DISINFECTANT. RMORY COLLEGE, OXFORD, GA., December 28, 1368.

Prof. Danny. Dear Sir—naving not been engaged for many years in the active duties of the

gaged for many years in the active duties of the Maddeal profession. I am only superficially acquainted with the claims of your Prophylactic Fluid, but am well acquainted with its chemical elements. While, therefore, I annot speak experimentally of the value of the compound vet the disinfecting and therascutic properties of the agents emmoyed in its or mornion, together with the well known reputation of its discoverer, as a chemist, authorize and to regard its merit, as of a high order; on the whole it must be considered as a valuable contribution to the class of articles to which it beings.

These views, I may add, are sustained by the testimony or many competent judges, who have tested its properties.

Believe me, dear sir.

Yours, respectfully,
A. MEANS, M. D., LL. D.

DEVER AND AGUE,

FROM WHICH MANKIND SUFFER over a large part of the globe, is the consequence of a diseased action in the system, induced by the poison our miasm of vegetable decay. This enhalation is evolved by the action of solar heat on, wet soil, and rises with the watery vapor from it.—

While the sun is below the horizon this vapor lingers near the earth's surface, and the virus is taken with the rough the horizon this vapor lingers near the earth's surface, and the virus is taken with it through the lungs into the blood. There it acts as an irritating poison on the internal viscers and excreting organs of the body. The liver becomes torpid and falls to secrete not only this virus. But shoo the bills from the blood. Both the virus and the bile accumulate in the circulation, and produce vio ent constitutional disorder. The spleen the kidneys, and the atomich sympathize with the liv r, and become disordered also. Finally, the institut of our organism, as it in an attempt to excel the noxious infusion, concentrates the whole blood of the body in the internal excretoring to exceed the moxious infusion, concentrates the whole blood of the body in the internal excretoring to force them to cast it out. The blood leaves the body of the central organs with congestive violence. This is the Chill. But in this offort it sails. Then the Feyer follows, in which the blood leaves the central organs and ruches to the surface, as if in another effort to expel the britisting poison through that other great excretory—the skin. In this also it fairs, and the system stand or the attempt exhausted and write for the recovery of strength to repeat the hopeless effort another day. These are the fits of paroxysms of Fever and Ague. We have labored to had, and have found an antidote,

AXER'S AGUE CURE.

Which neutralizes this realarious poison in the blood, an stimulates the liver to expel it from the blood, an stimulates the liver to expel it from the blood, an stimulates the liver to expel it from the blood. As it should, to it does cure this afflicting disorder with perfect certainty. And it does mose on rather does what is of mere service to those subject to this infection. If taken in season it expels it from the system as it is absorved, and thus keeps those who use it free rom its attacks; keeps the system in health although exposed to the cisease. Consequently it not only curea, but protects from, the great variety of affections which are induced by this malignant; infimance, such as lemittent Fever. Chill Fever. Dumb, or Masked Ague, Periodical Headache, or Billious Headache. Bit cus Fevers, recursis, Rheumatism Gout, Binduess Tootbache. Farache, Catarrib. Asthma, Palpitainons Fennful Affections of the pleen, Hysterics, Colle, Paralysis, and Painful Affect one of the stometh and Rowels, all of which, whoth arising from this cause, will be found to assume, more or less, the intermittent type. This "AGUE (URE" removes the cause of these derangements and cureythe disease.

This it accomplishes by stimulating the exerctories to expel the virus from the system; and these organs by degrees become habited to do this, their chies, of their own accord. Hence arrees what we term acclimentation. Time may ecomplish the same and, purposed the virus from the system; and these organs by degrees become habited to do this, their chies, and with safety. We have gent re son to believe his is a sure as well as after which has been discovered; and it has after which are caused by the initiasmatic in edit in than any other which has been discovered; and it has after which are caused by the initiasmatic in edit in than any other which has been discovered; and it has after which is it is cheap as well as good. AYER'S AGUE CURE.

CONSISTING OF HIS CELEBRATED LIVER MEDICINE.

ANODYNE PAIN KILL IT.

ANTI-BILIOUS PILLS, AGUE PILLS, Dysentery Cordial, Female Tonic

PURIFYING PILLS. THE FICELLENT REMEDIES OF O. S. PROPHITT, M. D., need no recommendation—
isser weil known power in removing the diseases peculiar to our Southern climate having already established for them an enviable reputation in Georgia
and the adjoining states, as the majority of persons
lishing in the south are predisposed to disease of the
Liver, it is granted by all intelligent physicians that
most of the pains and sches of our people are due
to organic or functional derangement of that important organ. Prophitt's Liver Medicine and antiBilious Pills strike directly at the root of the evil.
They care the Liver, which in nine cases out of en,
is at the bottom of the Couphs, Dyapepsia, Colle,
Sick Headache, Rheumatism, Constipation, Menstrual Obstituctions, Ec., so common among our
people, Earache, Toothache, acute Rheumatism,
Reuralgia and bodily pains of every kind fiee before
PROPHITT'S PAIN KILL IT
like chaff before the wind.

PROPHITT'S LIVER MEDICINE.

Dr. Prophitt—Having used this medicine sufficiently long to test its virtue, and to satisfy my own mind that it is, an invaluable remedy for Dyapepsia—a disease from which the writer has suffered much for six years—and being persuaded that hundreds who now suffer from this annoying complaint would be signally benefitted, as he has been, by its use, we deem it a duty we owe to this unfortunate class to recommend to them the use of this remedy, which has given not only himself but several members of his family the greatest rejief.

M. W. ARNOLD

DOOLY COUNTY, GA, April, 1967.

This is to certify that I was confined to the house, and most of the time to my bed, and suffering the greatest agony imaginable with Rheumatism, for five months, and after trying every available remedy, with no relief, I was cured with two bottles of Dr. O. S. Frophiti's Anodyne Pam Kill It, each coeting fifty cents only; if relieved me almost instantly. I therefore recommend it in the highest degree to others suffering from similar disease. I can say that it is one of the best tambly medicines now out, certain.

Very country of the control of the cont

Ocymoron, Ga., July 9, 1867.

Dr. Prophit.—Having used your Liver Medicine for more than a year in my family, I cheerfully recommend it to all persons unfering from Liver affections, Pyspepsia or Indigestion in any form. I also recommend your Dysentery Cordial as the best remedy for that disease.

O. T. ROGERS.

BTANFORDVILLE, PUTMAN COUNTY, Oct. 1, 1867.

Dr. O. S. Prophitt—Dear Str.—I hits is to certify that I have used your Ague Pills for the last ten years, and I have never falled to cure the Ague in a single instance, with them. They always break the chills the first day that they are given I can recommend them as being the nest ague medicine that I have, as found, and they leave no bad effects following them, as Quinine, &c.

Yours respectfully.

A. WESTEROOK.
